LIVIN LITE Recreational Vehicles, a division of THOR Industries, is proud to design and build the most durably constructed, lightest weight campers on the market. Our unique campers are referred to as “Generational Campers” because they are designed to stand the test of time. Not only will you use this camper, but your children should be able to use it with their children and so on. How can that be? Because LIVIN LITE campers are constructed out of all-aluminum and composites. While other camper manufacturers choose to use steel frames (which will rust) or wood based flooring, roofing, structure, and cabinetry (which can rot when exposed to moisture), LIVIN LITE builds our entire camper out of lightweight yet durable tubular aluminum, including a complete aluminum cage construction (sub-floor; floor; sidewalls; roof). Even our interior walls and cabinetry are constructed of welded tubular aluminum framing for the strongest, yet lightest models on the market. LIVIN LITE campers typically weigh approx. 60% of the competition, which means they can be towed by much smaller vehicles such as cars, crossovers, minivans, and SUVs. Even our larger models, like toy haulers and truck campers, which would typically be towed by larger, heavy duty trucks, can be towed by smaller, light duty trucks with ease. What does that mean for you as a consumer? It means that you are getting more value for your money because aluminum and composite construction is going to last a lot longer than the typically built steel and wood model, and LIVIN LITE owners are going to enjoy a significant savings in fuel as they are able to utilize smaller, more fuel-efficient tow vehicles.

Every LIVIN LITE camper comes with a three (3) Year Structural Warranty and most are available in a wide variety of exciting automotive metallic colors to better match your tow vehicle and provide our owners with a unique look.

Whether you are in the market for an entry level tent camper, or you are looking for a travel trailer, toy hauler, or truck camper – LIVIN LITE is your best choice for ultra lightweight camping and durable value.
Lightweight Tubular Aluminum Construction
Will not bow or rot away like wood.

Lightweight.
Will NOT rust, sag, rot or warp.
Designed to stand the test of time.

Strong. Durable.

Inter-Locking Aluma-Plank® Floor Decking
Will not rot, sag or soften like typical plywood floor decking.

Traditionally built competition...

NO STEEL NO RUST • NO WOOD NO ROT
Painted Aluminum Skinned Exterior Sidewalls
Rigid durability that comes in a variety of metallic colors.
(Note: some models have white fiberglass exterior skin.)

Diamond Plate Aluminum Rockguard and Trim Package
Protection that adds a great look to the exterior of the camper.

Tubular Aluminum Furniture and Bed Framing
Unmatched Strength and will stand the test of time.

Welded Aluminum Framed Cabinets
Will not mildew, warp or rot like typical wood cabinet structure.
(Note: some models feature hardwood doors over aluminum structured cabinets for a more residential feel.)

Azdel Covered Cabinets
Soft wood-look that is resistant to moisture. NO STAPLES!

3-YEAR STRUCTURAL WARRANTY!
The QUICKSILVER automotive camper makes the RV lifestyle available to everyone regardless of age or income. The majority of society drives fuel-efficient cars, cross-overs or mini-vans and the QUICKSILVER is the only camper in its class that can be towed by these types of vehicles and still be able to sleep up to six people comfortably! An LP package including cooktop, refer and furnace is standard in the XLP model and can be added as an option to other floor plans.

LIVIN' LITS
RECREATIONAL VEHICLES
LIVIN LITE is excited to partner with POLARIS - the #1 name in outdoor motorsports - to build a line of toy haulers bearing the POLARIS brand name, including exterior graphics that match popular POLARIS ATV models and interiors featuring the branding as well. All floorplans shown are available in the IGNITE and POLARIS branded ultra lightweight toy haulers, each featuring fiberglass laminated sidewall construction and hardwood cabinet doors over our aluminum cabinet construction.

The exciting new GAME DAY trailer truly is the “Ultimate Tailgating Experience”! Featuring three large swing-up doors that reveal a 70” flat screen TV with sound system and two bar areas, this one-of-a-kind unit was designed with tailgating in mind.
THE ULTIMATE TAILGATER!

A large four-door refrigerator/freezer can run off electric or LP, while the kitchen area offers a microwave and plenty of all-aluminum storage.

Each bar area features a durable aluminum table which conveniently flips up and into the trailer during travel. Optional stools make this bar very functional, especially when utilizing the optional Xbox systems and 60" flat screen TVs.

Popular options include secondary TVs with X-box gaming systems; custom outdoor sofas; a portable stainless steel grill; portable stainless steel kegorator (mini fridges for kegs); bar stools; an Onan quiet LP generator to power everything and more!

MENS & WOMENS BATHROOMS!

The back side of the trailer offers the added convenience of his and hers bathrooms complete with commodes, sinks and overhead storage areas.

NOTE: LIVIN LITE does not sell trailers with team branding or logos on them. Always be sure to purchase officially licensed products sold by your favorite University or Professional team when branding your trailer.
